20/(1/1	• •	5 Mr. Bissell discussed at some length the task force concept which will be employed in Project if it develops into a full-blown operation. The task force will be under the operational	
		direction of the Western Hemisphere Division. Mr. Bissell noted that	•
		any such operation was going to be necessarily less orderly than the	
	X.	methods to which we are accustomed. He did note that the use of DPS	
		as a cadre for this and similar operations had been better received in the Agency than he would have expected.	
		An early order of business must be the setting up of the	25X1
		Headquarters personnel under the same roof = the fifth floor of 1717 H Street.	
		6. DELEGATIONS OF PROCULEMENT AND CONTRACTING AUTHORITY -	
25X1A		Mr. Bissell commented that the papers on this subject that had been prepared by needed some reworking. Mr.	
		been prepared by needed some reworking. Mr. Bissell said he thought that in the past money commitments had occase	
		sionally become separated from decisions and that much larger invoices	
		arrived than originally expected. Partially this has been a result of	,
		the business methods of various contractors, but beyond this he thought the situation could be improved by some sort of rectangular chart, along	
		one edge of which would be listed all projects and along the other all

		7. MERGER DOCUMENTS - Mr. Bissell said that he thought the three	• .
		major merger documents (The summary memo, the operational concept and	•
,		the logistics armex) all needed some refinements in language. There was considerable discussion of the logistic portion merger with emphasis	
25X1A		on the requisition channels to be utilized, the place of	
		in any revised logistic system, and the necessity for some sort of re-	33
		vision of the Tab 6 procedures. In connection with the latter point,	
		Mr. Bissell wanted it made clear with the Air Force that the Agency will pay its own way; the argument with Tab 6 is not over the idea of re-	
	· A	imbursement for services received but rather over the tremendous com-	·
·	e'	plexities of the present Tab 6 procedure.	*
,		Mr. Bissell wanted the operational concept paper and the covering	•
		memorandum clarified as to those functions which would be Hos directed
